Carbon fiber cub cowling

Photo left shows the filter housings, two doors and upper and lower cowling pieces. An optional oil cooler fairing for the front of the cowling is also available.

Photo above shows front view of cowling. The cowling pieces are made of carbon fiber and can be used on PA 18 Cubs with a field approval. FAA/PMA pending.

Photo left shows top view of cowling.
Photo right shows side view of cowling and door panel.

The standard cub cowling is priced at \$2549.
The wide body cub cowling is priced at \$2575.

Also additional parts available:

Front mounted oil cooler fairing for \$250.
A heat muff air scoop for \$100.
